Continuing Medical Education

LYNN CANCER INSTITUTE GENITOURINARY TUMOR BOARD

COURSE DESCRIPTION:

A multidisciplinary team approach to care is fostered through peer-to-peer discussion and collaboration. The team diagnosis and treatment includes radiological and pathological findings and immunohistochemical testing, bridging these gaps across the continuum of care in order to enhance the overall quality of patient-centered GU care.

TARGET AUDIENCE:

Medical Oncologists, Radiation Oncologists, Colorectal Surgeons, Pathologists, Gastroenterologists, Pharmacists, Nurses, Occupational Therapists, Respiratory Therapists, Dietitians, Athletic Trainers, Patient Care Facilitators and all other personnel involved in the care of the gastrointestinal cancer patient.

LEARNING OBJECTIVES:

- Implement the optimal course of treatment for genitourinary cancer patients.
- Utilize multiple disciplinary approaches to diagnosis and treatment options, including radiological findings, pathological findings and immunohistochemical testing.
- Determine cancer staging using various modalities.
- Promote a multidisciplinary team approach by bridging gaps across the continuum of care in order to enhance the overall quality of patient-centered cancer care.
